

Net Script

Remove the repeater PL tone before the net begins with the removal tone of _____ (If your transceiver is not equipped with tones, ask if a fellow club member can remove it for you.)

Good morning and welcome to the Sunday morning edition of the MANCORAD two-meter net.

Your net control this morning is (your call) and my name is (your name) .

I will now take a standby for any emergency or priority traffic.
(Take a short pause.)

(Any announcements can be read at this time.)

I will now take a standby for any mobile or short time stations wishing to check into the net. Please call (your call) net control.

(Take a short pause and write down the calls of those checking in.)
(Request a second go around from those stations that have checked in mobile or short time by calling each station individually.)

Are there any other mobile or short time stations wishing to check into the net? Please call (your call) .

(Take a short pause and write down the calls of those checking in.)
(Request a second go around from any additional stations that have checked in mobile or short time by calling each station individually.)
(Repeat this step once more if you feel there may be more stations waiting.)

I will now take a standby for any regular stations wishing to check into the net. Please call (your call) net control.

(Take a short pause and write down the calls of those checking in.)
(Request a second go around from those regular stations that have checked in by calling each station individually.)

Are there any other regular stations wishing to check into the net? Please call (your call) .

(Take a short pause and write down the calls of those checking in.)
(Request a second go around from any additional regular stations that have checked in by calling each station individually.)
(Repeat this step once more if you feel there may be more stations waiting.)

Hearing no additional stations I will now close the net and turn the repeater back over to normal amateur use. This is (your call) .
